EDUCATION

Siddaganga Institute Of Technology

2022-2026

Bachelor of Engineering in Electronics and Communications (CGPA of 7)

Karnataka, India

Vishwamanava PU College

2020-2022

Pre-University Course (Percentage of 94.5 (KCET: 13k))

Karnataka, India

SKILLS & SUBJECTS

Programming: C++, Python
Databases: MySQL
Data Analytics: Excel, Power BI, Pandas, Matplotlib
Core Concepts: AWS, DSA, OOPs

PROJECTS

Revenue and Customer Behaviour Intelligence System — *Python, Power BI* — [GitHub](#)

- Built an end-to-end Revenue Intelligence System using Python and Power BI, analyzing 500K+ transactions and engineering features like total revenue, year-month, and product-level metrics.
- Designed multi-page dashboards with 10+ visuals (KPIs, trends, maps, scatter), enabling insights such as 17.37M total revenue, 37K invoices, and 11M+ quantity sold across countries.
- Identified key business patterns including top 10 high-revenue products, peak sales periods (2010–2011), and country-level performance, improving decision visibility for stakeholders.

E-Commerce Sales Analytics & Dashboard — *SQL, Excel, Power BI* — [GitHub](#)

- Processed and analyzed 1,000+ e-commerce transactions using SQL and Excel to derive business insights and clean data for reporting.
- Built interactive Power BI dashboards tracking key metrics such as Monthly Revenue Trends, Top-Selling Products, and Regional Sales Performance.
- Identified top 5 product categories contributing over 70% of total sales, informing inventory prioritization strategies.

Supermarket Management System — *C++, OOPs, Vectors* — [GitHub](#)

- Developed a console-based supermarket system to manage products and handle buyer orders. Implemented administrator features: add, edit, remove, and list products using OOP and vectors.
- Created buyer features: place orders, calculate discounts, and generate detailed receipts. Designed a structured CLI interface for easy navigation and usability.

EXPERIENCE

Deloitte Data Analytics Job Simulation

Sept 2025

Virtual Internship — [Certificate](#)

Remote

Completed a Deloitte job simulation focused on data analysis and business insight generation.

Developed an interactive data dashboard using Power BI to visualize key performance metrics.

Utilized Excel to classify datasets, derive insights, and draw meaningful business conclusions.

CERTIFICATIONS

DSA in C++: Completed structured course focusing on data structures, algorithms, and problem-solving techniques using C++.

Deloitte Data Analytics Job Simulation: Completed a Deloitte job simulation using Power BI and Excel to analyze, classify data, and generate business insights.
